TOWABLE GENERATORS

TAKE YOUR POWER ANYWHERE YOU WANT.

Quiet and reliable, KOHLER® towable generators give you dependable power wherever you go — from remote, unmanned sites to golf tournaments and everywhere in between. Unlike standby generators, towable generators adapt to your needs, wherever they may be. Choose your application, and we'll match it with a hard-working towable at a price you can afford. Throw in our global service and support network and well...you've got everything you need.

And then some.

STANDARD FEATURES

EVERY UNIT COMES FULLY LOADED. LUCKY YOU.

Kohler Power Systems offers towable generators from 20 kW all the way up to 500 kW — for every application you can imagine. Each one is built emission-compliant for non-road use and comes equipped with a rugged trailer, durable enclosure and digital controller.

THE KOHLER DIFFERENCE

QUIET PERFORMANCE

All KOHLER towable generators feature a sound enclosure to ensure quiet performance.

TRUSTED RELIABILITY

Tough to the core, our towables are built to withstand the elements and run for long hours in standby and prime applications.

EASY TO OPERATE

The distribution panel features multiple sockets and access to the customer connection interface.

- 1 CONVENIENCE SOCKETS**
Receptacles available for 120/240 with GFI-protected breakers
- 2 CUSTOMER LOAD CONNECTION**
Cam lock and busbar connections available with strain relief for enhanced safety
- 3 BATTERY DISCONNECT SWITCH**
Ensures your battery will maintain its charge even after periods of prolonged storage
- 4 KOHLER® DECISION-MAKER® CONTROLLER**
Simple, reliable controls that operate in manual or automatic mode.
- 5 VOLTAGE SELECTOR SWITCH**
DOT-approved with multiple hitch options, levelers, toolbox and more
- 6 OIL DRAIN PUMP**
Located in the best place possible for easy maintenance

100REOZT

ADDITIONAL BENEFITS

IT JUST KEEPS GETTING BETTER.

There's more to our towables than meets the eye. Take look below and see for yourself.

STANDARD FEATURES

DOUBLE-WALL FUEL TANK

Provides 110% containment of oil, coolant and fuel.

HEAVY-DUTY TRAILER

DOT-approved with multiple hitch options, levelers, toolbox and more

LARGE LOCKABLE DOORS

Provide easy access to generator fueling and maintenance

SOUND ENCLOSURES

Standard on all KOHLER towable generators to ensure ultra-quiet performance and provides a single point lift.

OPTIONAL FEATURES

HEAVY -DUTY CAMLOCKS

Provide quick-on/quick-off attachment to the power source (up to 100kW)

BATTERY CHARGER

Gets you charged up fast for quick deployment

TRAILER OPTIONS

Available with fire extinguisher, jack/lug wrench, cable racks and spare tire

DEPENDABLE POWER AND PERFORMANCE TESTED, TRIED AND PROVEN TO WORK. PERIOD.

Our reputation was born 90 years ago in the South Pole. There in the world’s most brutal climate, Admiral Richard Byrd and his band of explorers plunged headlong into arctic temperatures with nothing but KOHLER® generators to power their conquest. Since then, our generators have made their presence known worldwide, powering every application including education and healthcare to data centers and waste water treatment.

Bottom line, KOHLER industrial power systems are built to work. Before our systems see the light of day, they endure the industry’s tough testing standards – including power, transient, sound, cooling and complete system performance.

When the world goes haywire, you’ll be ready.

SERVICE AND SUPPORT THE HELP YOU NEED. ANY TIME, ANYWHERE.

You're never too far from Kohler. Across the world, more than 800 locations are ready to provide sales, installation and aftermarket support services. And each one offers expertise in power specifications, equipment and integration. There's no question they can't answer. We should know, we trained them ourselves.

Plus, if you ever need assistance in the middle of the night, we'll take care of you. KOHLER Power professionals are available to offer troubleshooting, advice, service and support.
