TAKE COMMAND

You've got a lot riding on your reputation. A job, a contract, a crew. There's no time to mess with shoddy power. So man up with KOHLER® commercial marine generators. For the last 90 years, we've built some of the toughest, longest-lasting commercial generators on water. And we back 'em up with more than 800 sales, installation and service locations around the world.

Bottom line: Our generators just work. So you can command the day.

WHY KOHLER MARINE?

PROVEN RELIABILITY

Every KOHLER commercial marine generator is extensively quality tested – before model release and before leaving the factory. The result is proven reliability.

BETTER BACK END

Quick response Our PMG exciters respond fast to heavy loads.

Smaller size Our new Fast Response® alternators are smaller than ever, with even more power than our previous models.

Temperature control Class H insulation, two-thirds-pitch stator and skewed rotor help prevent short circuits and overheating.

NO-HASSLE WARRANTY

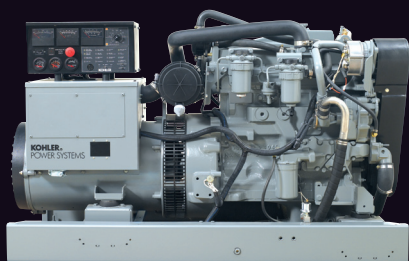

For up to 3 years, we cover everything.

LOCAL AND GLOBAL SUPPORT

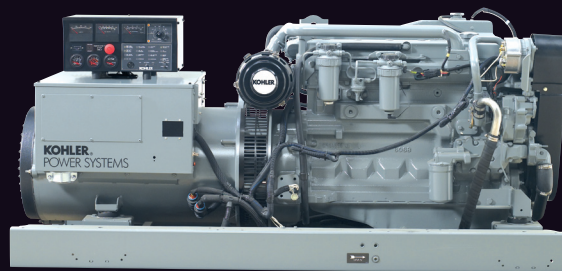

KOHLER Marine has more than 800 sales, installation and service locations all over the world. If you need us, we're there.

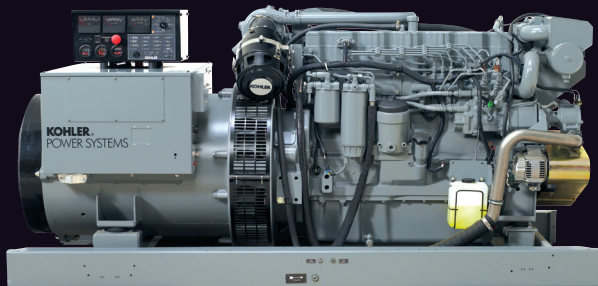

UNITS AVAILABLE
UP TO 500 kW

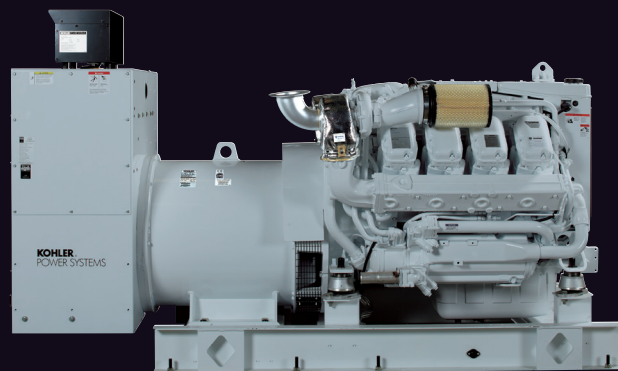

40EOZC 40 kW

99EOZC 99 kW

180EOZC 180 kW

400EFOZC 400 kW

TIER 2 GENERATORS

EOZC/EFOZC

GENERATOR FEATURES

- 50 and 60 Hz models available
- Isolated ground – optional on 33-180 kW, standard on 500 kW
- KOHLER® Fast-Response® (FRII) alternator equipped with 12-lead reconnectable stators for multi-voltage adjustability and permanent magnet exciters
- Inputs for 0-5 VDC or 4-20 mA voltage biasing for paralleling applications
- User-friendly KOHLER Decision-Maker® 3+ controllers
- Frequency regulation of ± 0.5 percent and voltage regulation of ± 2 percent
- Class H insulation – thixotropic-coated, meets NEMA standard
- Steel rail-type skid with drip-proof tray

DIESEL ENGINE FEATURES

- EPA/CARB/IMO emissions compliant
- Single-side service for fuel system, lubrication system and seawater pump
- Oil drain valve with hose
- Standard alarms for high exhaust temperature, coolant temperature, oil pressure and seawater pressure
- Optional alarms for high/low coolant and oil levels
- Electronic paralleling governors (optional on the 40 kW)

TIER 3 GENERATORS

EOZCJ/EFOZCJ

GENERATOR FEATURES

- 50 and 60 Hz field frequency adjustable
- Isolated ground – standard on all models
- **NEW** KOHLER Fast-Response X alternators (FRX) equipped with 12-lead reconnectable thixotropic-coated stators and neodymium permanent magnet exciters (patent pending)
- **NEW** KOHLER Decision-Maker 3500 – now with paralleling controllers
- Frequency regulation of ± 0.5 percent and voltage regulation of ± 2 percent
- Class H insulation – thixotropic-coated, meets NEMA standard
- Steel rail-type skid with drip-proof tray

DIESEL ENGINE FEATURES

- EPA Tier 3 emissions compliant
- High-pressure common rail fuel system (45-150 kW)
- Multivalve cylinder heads
- Electronic paralleling governors – standard on most, optional on the 33/40 kW
- Single-side service for fuel system, lubrication system and seawater pump
- Oil drain valve with hose
- Standard alarms for high exhaust temperature, coolant temperature, oil pressure and seawater pressure
- Optional alarms for high/low coolant and oil levels

GENERATOR OPTIONS

- Front-clutched PTOs available on 33-180 kW models
- Dry exhaust elbows
- Keel or heat exchanger cooling
- Remote-start panels and extension harnesses
- Marine classification society certifications available
