

INDUSTRIAL POWER

TOTAL SYSTEM INTEGRATION
GENERATORS | TRANSFER SWITCHES | SWITCHGEAR | CONTROLS

**TOTAL SYSTEM INTEGRATION
EVERYTHING WORKS TOGETHER.
NO IFS, ANDS OR BUTS.**

Look, a power system is only as good as the parts that define it. That's why we engineer every detail down to the last bolt. This isn't your typical power system. It's a KOHLER® industrial power system – which means it's loaded with designed and manufactured components from Kohler including generators, transfer switches, switchgear, controllers and more. But the best part? We customize each power system to your specs.

Specifying has never been easier.

- 1 KOHLER® GENERATOR**
10-3250 kW diesel and 25-400 kW gas
- 2 TRANSFER SWITCH**
Open, closed, programmed transition, bypass and service entrance
- 3 REMOTE ANNUNCIATOR**
Monitors and tests your generator set and ATS from a remote location
- 4 PD-SERIES SWITCHGEAR**
Parallels multiple generators to each other or to the utility

- 5 DECISION-MAKER® CONTROLLERS**
KOHLER controls and diagnostics ensure reliable on-site power
- 6 WIRELESS MONITOR**
Monitors your system's performance around the clock
- 7 KOHLER MONITOR SOFTWARE**
Provides monitoring and adjustment of generator and ATS equipment

DEPENDABLE POWER AND PERFORMANCE TESTED, TRIED AND PROVEN TO WORK. PERIOD.

Our reputation was born 90 years ago in the South Pole. There in the world's most brutal climate, Admiral Richard Byrd and his band of explorers plunged headlong into arctic temperatures with nothing but KOHLER® generators to power their conquest. Since then, our generators have made their presence known worldwide, powering every application including education and healthcare to data centers and waste water treatment.

Bottom line, KOHLER industrial power systems are built to work. Before our systems see the light of day, they endure the industry's tough testing standards – including power, transient, sound, cooling and complete system performance.

When the world goes haywire, you'll be ready.

SERVICE AND SUPPORT THE HELP YOU NEED. ANY TIME, ANYWHERE.

You're never too far from Kohler. Across the world, more than 800 locations are ready to provide sales, installation and aftermarket support services. And each one offers expertise in power specifications, equipment and integration. There's no question they can't answer. We should know, we trained them ourselves.

Plus, if you ever need assistance in the middle of the night, we'll take care of you. KOHLER Power professionals are available to offer troubleshooting, advice, service and support.

GAS GENERATORS

SURVIVAL GEAR FOR THE WORST-CASE SCENARIOS.

25-400 kW

Come what may, KOHLER® gas generators will get you through – no questions asked. Perfect for applications ranging from light commercial to heavy industrial, our LP and natural gas generators are available in a wide range of power outputs – from 25 to 400 kW – and can be specified any way you want.

Better still, every size KOHLER gas generator is available EPA certified which saves you big dollars on site certification. Not only that, these generators are capable of tying into your natural gas utility or LP supply. So you'll never have to think about fuel again.

STANDARD FEATURES

TESTED AND APPROVED

KOHLER generators meet tough industry testing and quality standards (UL, CSA, IBC, NFPA).

ONE-STEP FULL-LOAD ACCEPTANCE

Our gas generators accept full load to keep you up and running.

ULTIMATE PERFORMANCE

Our 1800-rpm engines run quietly, offer extended life and provide great fuel efficiency.

EMISSION-CERTIFIED GENERATORS

Every size KOHLER gas generator is available EPA-certified, ECM-controlled and designed to meet the latest spark-ignited emission requirements.

1 EMISSION-CERTIFIED

Three-way catalyst reduces nitrogen oxides, carbon monoxide and hydrocarbon emissions

2 FUEL SYSTEMS

Available with natural gas, LP, single or dual fuel and liquid withdrawal systems

3 HIGH-AMBIENT COOLING

Designed to meet your extreme operating conditions

4 KOHLER PMG ALTERNATORS

Provide advanced short circuit capability and meet NEMA MG 1, IEEE and ANSI standards

5 KOHLER DECISION-MAKER® CONTROLS

Available with a variety of controls – basic, advanced, paralleling

6 OPTIONS AND ACCESSORIES

Improved motor-starting alternators, multiple circuit breakers, enclosures, block heaters and more

DIESEL GENERATORS

BRED FOR THE TOUGHEST JOBS ON EARTH.

10-3250 kW

These generators are tough as nails and made to power all of your applications (simple to complex), including healthcare, gas stations, data centers, airports and more. KOHLER® diesel generators come loaded with power and are available in a range of sizes up to 3250 kW.

Of course the diesel generators we make are available EPA-certified. And you can customize them any way you like with a variety of accessories.

STANDARD FEATURES

TESTED AND APPROVED

KOHLER generators meet tough industry testing and quality standards (UL, CSA, IBC, NFPA).

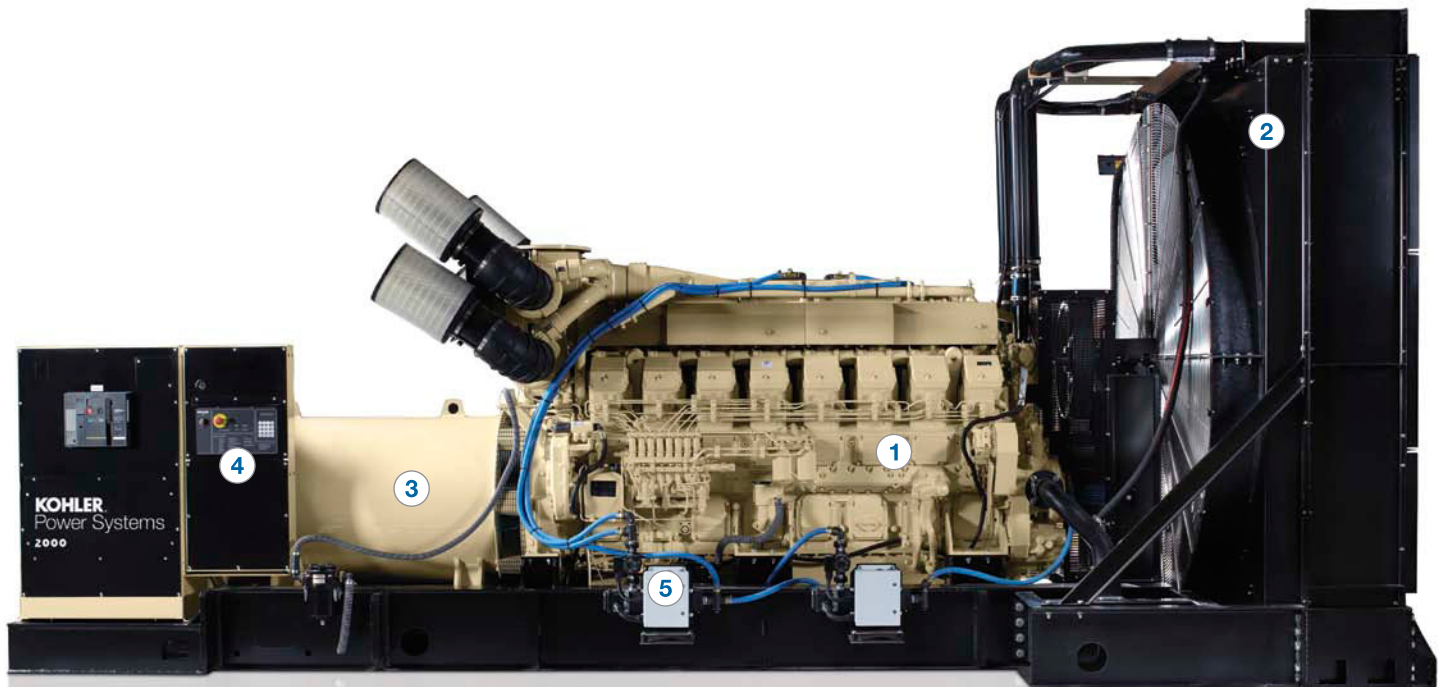

RAPID RESPONSE

Our generators power up in 10 seconds or less and deliver quality power during voltage and frequency changes.

EASY INSTALLATION

Our quickest install ever – large stub-up areas; easy access to fuel, load and exhaust locations.

- 1 EMISSION-CERTIFIED**
EPA-certified, industrial-grade engines meet the latest emissions requirements
- 2 HIGH-AMBIENT COOLING**
Designed to meet your extreme operating conditions

KOHLER® FAST-RESPONSE® ALTERNATORS

ALL THE BELLS AND WHISTLES. AT NO EXTRA CHARGE.

More than 90 years ago, Kohler unleashed its first alternator – and we’ve been raising the bar ever since. Today we’re proud to manufacture KOHLER Fast-Response Permanent Magnet Generator (PMG) alternators – a breakthrough in speed technology. Built to perform, these revolutionary alternators offer fast response to load changes.

On some other gensets, PMG alternators come as a costly upgrade. Not so with Kohler. All of our 35 – 300 kW units are factory-equipped with our Fast-Response PMG alternators. Which means you get all the bells and whistles with no expensive upcharge.

STANDARD FEATURES

TRUSTED RELIABILITY

Greaseless bearing and Class H insulation provide extra thermal protection for lasting reliability.

ULTIMATE PERFORMANCE

High-power density design makes Kohler an industry leader in motor-starting capability.

TESTED AND APPROVED

Our alternators meet NEMA MG 1, IEEE and ANSI standards for temperature rise and motor-starting capability.

CLEAN POWER

Experience the rewards of clean power with precise voltage, current and frequency control.

DURABLE SHORT-CIRCUIT RATINGS

The very definition of performance. Our alternators sustain short-circuit currents up to 300% of the rated current – for up to 10 seconds.

1 PMG-BRUSHLESS ALTERNATOR

Features brushless permanent magnet exciter for fast load response

2 RECONNECTABLE LEADS

Designed with 4-lead dedicated voltages and 12-lead optional voltage connections

3 VACUUM-IMPREGNATED WINDINGS

Fungus-resistant epoxy varnish ensures reliability in tough environments

4 ROTOR

Two-thirds pitch stator and skewed rotor deliver clean power and superior voltage waveform

KOHLER® DECISION-MAKER® CONTROLS

TECHNOLOGY SO ADVANCED, IT'S EASY.

At Kohler, we don't do one size fits all. With our Decision-Maker controls, we design custom packages, tailored to your needs – from basic controls to multiple generator paralleling.

Plus, Kohler makes each controller easy to operate with user-friendly displays and keypad functions. And if that weren't enough, our complete line of Decision-Maker controllers features advanced network communications for remote monitoring as well as adjustable parameters to accommodate your specific application.

STANDARD FEATURES

TESTED AND APPROVED

Our controls meet NFPA, UL and CE standards.

INTEGRAL VOLTAGE REGULATOR

KOHLER controls deliver precise voltage regulation (.05%–0.25%) to protect your sensitive equipment from poor power quality.

SEAMLESS SYSTEM INTEGRATION

Every controller works with our automatic transfer switches and switchgear for complete system integration.

ALTERNATOR PROTECTION

This must-have technology protects the alternator from thermal overload.

REMOTE COMMUNICATIONS

MONITOR SOFTWARE

Monitors and controls generator sets and transfer switches from your personal computer.

POWERSCAN™

Provides system monitoring around the clock using wireless technology to send messages to your phone, fax and email.

REMOTE ANNUNCIATOR

Offers an economical solution for remote annunciation of faults and status conditions for NFPA-110 compliance.

- 1 EMERGENCY STOP BUTTON**
Turns off generator immediately
- 2 CONTROL BUTTONS**
Control synchronizing breakers and generator operation (Off/Auto/Run)
- 3 STATUS INDICATORS**
Display generator mode, breaker and synchronization status
- 4 DIGITAL ALPHA/NUMERIC DISPLAY**
Displays faults, warnings, codes and metering
- 5 KEY SWITCH**
Secures your program settings
- 6 PUSH-BUTTON KEYPAD**
Sets custom parameters, displays menus, resets faults and more

DECISION-MAKER® PARALLELING SYSTEM

TOTAL INTEGRATION. FROM TOP TO BOTTOM.

When it comes to paralleling systems, Kohler offers 100% integration. Our Decision-Maker Paralleling System (DPS) is designed, engineered and factory-tested as a complete system, not built from parts from multiple manufacturers like some competitive products.

Comprised of KOHLER® generators, controls and switchboards, DPS delivers dependable power across multiple applications.

STANDARD FEATURES

REDUNDANT BACKUP POWER

Total and complete protection. If one genset needs servicing, the DPS makes power available to your most critical loads.

EASY EXPANSION

Purchase a system that fits your budget today. And, in the future, we'll expand on your DPS instead of completely replacing it.

OPERATIONAL SAVINGS

Saving has never been easier. The DPS automatically turns off generators when your needs are low.

FAST LEAD TIMES

Our DPS is a standard product, no customization necessary. So you'll get it faster than custom paralleling systems.

OPTIONAL FUEL TYPES

Mix and match any fuel you want. Available for use with diesel, natural gas and LP fuel types in the same system.

1 KOHLER DECISION-MAKER 6000 CONTROLLER

Enables load sharing and synchronization for up to eight generator sets in the KOHLER DPS

2 MASTER CONTROL PANEL

Handles load add/shed, number of gensets online, monitors event logging and alarms

3 POWER DISTRIBUTION SWITCHBOARD

Accommodates paralleling and distribution breakers

4 AUTOMATIC TRANSFER SWITCH

Intelligently selects the power source and transfers loads

SUB-BASE FUEL TANKS

BUILT TO MATCH YOUR ENVIRONMENTAL NEEDS.

If it's environmental protection you want, you're in the right place. KOHLER® tanks feature two containment walls to keep your fuel where it should be – inside. Plus, they're coated with Power Armor Plus™ (a textured epoxy-based, rubberized finish) for heavy-duty durability.

STANDARD FEATURES

ENVIRONMENTAL PROTECTION

Our tanks are UL-approved secondary containment tanks and can be configured to meet cUL, IBC and other required codes.

MULTIPLE RUN TIMES

Usable tank capacities provide 12 to 72 hours of operation.

CUSTOM OPTIONS

Choose from alarm panels, spill-fill containments, high-fuel switches, tank markings and more.

EXCELLENT PROTECTION

Our new Power Armor Plus – polyurea textured coating eliminates the need for exterior epoxy treatment and provides excellent abrasion resistance and corrosion protection.

1 STATE TANK OPTIONS

Spill-fill containments, three-alarm panel, fuel basin switch and tank markings

2 EMERGENCY PRESSURE RELIEF VENTS

Ensure proper venting of inner and outer tank during extreme conditions

3 NORMAL VENT WITH CAP

Raised above the lockable fuel fill cap

4 ELECTRICAL STUB-UP

Features large stub-up area for easy installation

5 LEAK DETECTION SWITCH

Annunciates a contained primary tank fuel leak at generator control

6 FUEL SWITCH

Interfaces with controller to provide fuel level indication

ENCLOSURES

REDUCE THE RACKET. AND PUT MOTHER NATURE IN HER PLACE.

If you want to keep the weather out and the noise in, there's really only one way to go. KOHLER® enclosures are bolstered by industrial steel or heavy-duty aluminum and acoustic insulation to protect your investment and keep the noise down. In addition, we coat every unit with Power Armor™ (a textured industrial finish) for heavy-duty durability in harsh conditions.

UL 2200 and IBC-certified packages are available.

STANDARD FEATURES

CUSTOM OPTIONS

Multiple weather/sound enclosure options are available on 10 to 3250 kW generators.

QUIET PERFORMANCE

Our enclosures offer acoustic insulation to meet your quiet applications.

CERTIFIED PACKAGES

Enclosures are UL2200-tested and approved, IBC-certified and meet 150-mph wind rating.

ADVANCED CORROSION PROTECTION

Power Armor is a textured automotive-grade finish that surpasses a 2,500 hour salt spray exposure test.

- 1 ADVANCED DOOR SYSTEM**
Hinged doors, door handles and door holders provide security, protection and easy access for service
- 2 SERVICE ACCESS**
Multiple personnel doors and removable panels offer easy access to generator control, fuel fill, fuel gauge, oil fill and battery
- 3 INTERNAL EXHAUST SYSTEM**
Features insulated exhaust silencer for improved aesthetics, safety and noise reduction
- 4 OIL AND RADIATOR DRAINS**
Provide an easier, quicker way to service your generator
- 5 AVAILABLE ACCESSORIES**
Electrical packages, lighting, heaters, motorized louvers, stairs and more

AUTOMATIC TRANSFER SWITCHES

FORGET THE FORECAST. WE HAVE YOU COVERED.

Bridging the gap between loss of utility and standby power is no small task, which is why KOHLER® automatic transfer switches are essential to KOHLER power systems.

Kohler's latest generation of transfer switches – featuring MPAC® controllers – are loaded with technology to ensure transfer of power from the utility to the generator and back. When the grid fails, power is transferred to the standby system. And then it's back to business as usual.

STANDARD FEATURES

MULTIPLE APPLICATIONS

Find the perfect option. Our transfer switches are available in standard, bypass and service entrance configurations with open, programmed and closed transition operating modes, 30-4000 amps.

SEAMLESS SYSTEM INTEGRATION

Sit back and relax. Our transfer switches easily interface with KOHLER Decision-Maker® controllers.

ADVANCED COMMUNICATIONS

Each ATS comes loaded with technology. Ethernet and Modbus communications capabilities are standard.

CERTIFIED PACKAGES

Available packages are UL-listed, CSA- and IBC-certified.

- 1 CERTIFIED ENCLOSURES**
Meet NEMA Type 1, 3R, 12 and 4X enclosure standards
- 2 BYPASS OPERATION**
Eliminates interruption to the loads during maintenance
- 3 MPAC DIGITAL CONTROLLER**
Provides a full array of features including communications, I/O, load management and other advanced functionality
- 4 HEAVY-DUTY CONTACTOR**
Choose from any breaker, specific breaker and current limiting fuse rated mechanisms
- 5 AVAILABLE ACCESSORIES**
Anti-condensation heater, voltage surge suppressor, line-to-neutral voltage monitoring, seismic certification and more

SWITCHGEAR

LOAD IT UP. ANY WAY YOU WANT.

Whether your needs are for emergency, prime power, interruptible rate or peak shaving applications, Kohler has the switchgear to back them all up. When it's time to spec, our team will take care of you every step of the way – from concept to startup. And we will engineer custom switchgear to meet your needs.

Now when it comes to flexibility in generator paralleling, KOHLER® PD-Series paralleling switchgear is the way to go. If utility power ever fluctuates or fails, your KOHLER switchgear automatically reacts to the situation, engages the generators and connects them to your facility.

STANDARD FEATURES

CUSTOM DESIGN

Tailor-made from top to bottom. Our switchgear is engineered to specifically meet your unique application.

SEAMLESS SYSTEM INTEGRATION

It's simple really. Our switchgear works with the entire KOHLER power system – generators, automatic transfer switches and more.

CERTIFIED PACKAGES

All KOHLER switchgear is cUL-listed and IBC certified.

DESIGN SUPPORT

Need help? Our experts are ready to assist in switchgear design.

1 CIRCUIT BREAKERS

Choose from a variety of paralleling and distribution circuit breakers

2 CUSTOM OPTIONS

Choose from controls, meters, protective relays and more

3 CONTROL CENTER

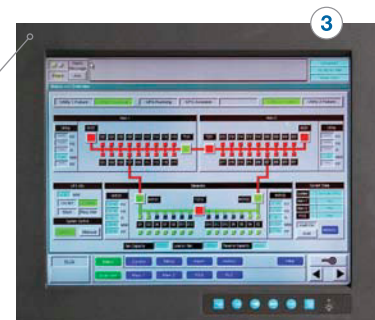

Features color touch screen, USB port for downloading reports, Modbus communications, Web server and more

4 LOW AND MEDIUM VOLTAGES

Available up to 13.8 kV

PD-2000

Features	PD-2000	PD-3000	PD-4000
Low-voltage switchboard (UL/cUL 891)	x		
Low-voltage switchgear (UL/cUL 1558)		x	
Medium-voltage metal-clad switchgear (UL/cUL-listed)			x
NEMA 1	x	x	x
NEMA 3R	x	x	x
Short-circuit rating up to 200 kA		x	x
Short-circuit rating up to 150 kA	x		
Bus rating up to 10,000 A	x		
Bus rating up to 9200 A		x	
Bus rating up to 6000 A			x
Maximum voltage 600V	x	x	
Maximum voltage 15kV			x
60 Hz	x	x	x
50 Hz	x	x	x
Parallel up to 32 generators	x	x	x
15" color touch screen (optional touch screen sizes available)	x	x	x
Customizable controls, relays and metering	x	x	x
Modes of Operation			
Emergency standby	x	x	x
Prime power	x	x	x
Base load (peak shave)	x	x	x
Import (peak shave)	x	x	x
Isolate (interruptible rate)	x	x	x
Customizable sequence of operation	x	x	x

TOWABLES

MUSCLE ON THE MOVE.

20-500 kW

Quiet and reliable, KOHLER® towable generators give you dependable power wherever you go – to remote, unmanned sites to golf tournaments and everywhere in-between. Whatever your application, Kohler has a durable, cost-effective towable solution to meet your needs.

STANDARD FEATURES

LONG RUN TIMES

KOHLER towable generators run long hours before refueling.

QUIET PERFORMANCE

All KOHLER towable generators feature a sound enclosure to ensure quiet performance.

TRUSTED RELIABILITY

Tough to the core, our towables are built to withstand the elements and run for long hours in standby and prime applications.

EASY TO OPERATE

The distribution panel features multiple sockets and access to the customer connection interface.

- 1 DOUBLE-WALL FUEL TANK**
Provides 100% containment of oil, coolant and fuel
- 2 CUSTOMER LOAD CONNECTION**
Cam lock and busbar connections available with strain relief for enhanced safety
- 3 CONVENIENCE SOCKETS**
Receptacles available for 120/240 with GFI-protected breakers
- 4 VIEWING WINDOW**
Allows easy monitoring through viewing window
- 5 HEAVY-DUTY TRAILER**
DOT-approved with multiple hitch options, levelers, toolbox and more
- 6 LARGE LOCKABLE DOORS**
Provide easy access to generator fueling and maintenance
